

Integrated Management System Policy Statement

The Board and Management of FSDH Merchant Bank Limited is committed to ensuring the protection of all physical and electronic information assets, continuity of critical business processes in the midst of disruption and derivation of maximum value from IT investments.

Our commitment to service management, Information security and business continuity is delivered by adopting an integrated approach using ISO 27001, ISO22301 and ISO 20000 standards to comply with all relevant legislation, contractual, other legal and industry-specific requirements.

The Bank therefore requires that

All staff and certain external parties comply with the Bank's security policies,

Breach of the policy or security mechanism attracts disciplinary measures, up to and including termination of employment/contract as well as legal action in line with the Cybercrime Prohibition Act 2015.
